TEMPLATE 02 · SKOOL COMMUNITIES

Skool Setup Checklist & Structure Template

Communities don't die from lack of content, they die from lack of structure. With this template your Skool group is ready in an afternoon, and new members know immediately what to do.

Categories (Community tab)

CATEGORY	PURPOSE
👋 Start here	Introduction + first task
🌙 Daily practice	Check-ins, rituals, journaling prompts
🎙️ Live calls	Dates + recordings
✨ Breakthroughs	Share wins = social proof
❓ Questions	Everything that fits nowhere else

Classroom structure

1. Module 0 · Welcome: video (max. 5 min), rules, first task
2. Module 1 · Foundation: your core concept in 3–5 lessons
3. Module 2 · Practice: guided exercises, meditations, audios
4. Module 3 · Deep dive: unlocked at level 3 (use gamification!)
5. Bonus · Live call recordings

Welcome post (template)

> **Welcome to [community name], [first name]** 🌿
> So glad you're here. To settle in well, three things for today:
> 1. Introduce yourself in “Start here”: who are you, and what do you wish for the next 30 days?
> 2. Watch the welcome video in the Classroom (5 min).
> 3. Save the next live call: [date, time].
> Looking forward to you. [Your name]

Launch checklist

- [ ] Cover image + group description with a clear promise
- [ ] Membership questions on joining (3 qualifying questions)
- [ ] Level rewards defined (e.g. level 3 = bonus module)
- [ ] Calendar with a recurring live call
- [ ] Pricing: free / monthly / annual decided
- [ ] 5–10 founding members before the public launch

→ *Activity beats content. A group with 3 lessons and daily exchange retains members longer than one with 50 videos and silence.*
