TEMPLATE 06 · AI-DRIVEN PROCESSES

Automation Map for Creators

The four automations that directly make money or save hours, in the order you should build them.

1 · Comment → DM → list

1. Post with a call-to-action: “Comment CALM and I'll send you the meditation”
2. Automatic DM with link to the opt-in page (e.g. ManyChat)
3. Opt-in → email list with tag “Freebie meditation”
4. Welcome sequence starts automatically

2 · Payment → access

1. Payment via Stripe / Digistore
2. Automatic access in Skool
3. Onboarding email with first steps
4. On failed payment: reminder, then pause access

3 · Application → discovery call

1. Application form with qualifying questions
2. Good-fit applicants automatically receive the calendar link
3. Reminders 24 h and 1 h before
4. Non-fits receive a friendly alternative (e.g. course)

4 · Recording → content

1. Record the live call
2. AI transcript + summary
3. Clips, captions, newsletter draft
4. You review and approve. A human stays the final say.

Privacy & trust check

- [ ] Data processing agreements with all tools
- [ ] Double opt-in for email
- [ ] Privacy policy names all tools
- [ ] No automated healing claims in DMs or emails
- [ ] No bot pretending to be you

→ *In this space, people buy closeness. Automate the logistics, never the relationship.*
